

CREDIT CARD AUTHORISATION

City Fertility Centre (CFC) does not require pre-payment for your treatment cycle. CFC will charge your nominated credit card on the day of your egg collection. Additional laboratory services, including CGH testing, performed as part of your IVF cycle will also be deducted from your nominated credit card at the time they are performed.

You must ensure you have the correct credit limit and daily limit available for this transaction to be processed. Should the transaction be declined, this may result in the cancellation of the cycle.

CFC will retain a copy of this Credit Card Authorisation Form on your secure patient file for future billing. We will contact you prior to deducting any fees and will send a receipt to you once processed.

Please note that it is your responsibility to notify City Fertility, in writing, of any changes to the credit/debit card details supplied below.
